FORMAT

Audio or video, remote or in person, 30 to 90 minutes. A short guided practice can be woven in live.

From the part you play to *the whole you are*.

Telfer is a Wild Mind Guide, teacher and the founder of Ecotone Academy, based in qathet, British Columbia. He has trained with the Animas Valley Institute to be a Wild Mind Guide since 2018, holds a Doctor of Divinity and an Ayurvedic Doctor-level certification, and has studied Vedic Astrology since 2009.

His original framework, Internal Family Solar Systems, builds on Richard Schwartz's Internal Family Systems and reads the planets as archetypal parts of the psyche. He is the former President of the Colorado Ayurvedic Medical Association and former Event Director for Dr. Zach Bush.

His conviction is simple: you are part of a larger whole, and a whole made of parts. Health and happiness come naturally when all the parts are in harmony.

CONVERSATIONS READY TO RECORD

01 Your planets are your parts

An IFS-informed framework that reads the seven classical planets as parts orbiting the Self like the Sun. No bad parts, no bad planets.

02 Destroying without malice

How to shed an identity you have outgrown without making an enemy of who you used to be. Crisis as an ecotone.

03 Dreams are not a dictionary

Meeting the night world as a living conversation with psyche, soul and Earth.

04 You are part of a larger whole

Cymatics, toroidal fields and Fuller's tensegrity: the same laws that shape galaxies shape the psyche.

05 Earth is in an ecotone

Our collective crisis as a predictable, initiatory phase, with parts work applied to a whole society.
